

What's happening in Grade 3?

UOI: On Friday we briefly looked at our second type of rock, Sedimentary. While Igneous have the wow factor of being from volcanoes I assured the kids Sedimentary are just as exciting! After all, it's in Sedimentary rocks that we find fossils! Another Cool Fact: Calgary was once called the the "[Sandstone City](#)" for you guessed it, the vast amount of sandstone used in the downtown core. Sandstone is of course another type of Sedimentary rock. In a usual year we would get a chance to see these buildings on our field trip to the Glenbow Museum. If you're ever downtown as a family take a moment to point out the amazing 'fire proof' buildings.

MATH: We will take a break from our usual Daily Math and focus on the 'Warden's Schedule' at our Dinosaur Parks. If time allows we will also do some fun Easter themed math activities.

Reminders:

- Spelling Words will be Easter themed this week.
- Farm Safety Presentation on Tuesday
- Early Dismissal on Thursday - noon.
- No School for Easter Break April 1st - April 11th

Miss Olver
Grade 3

March 29th - April 2nd

OPEN-MINDED

Current Units of Inquiry

How the World Works

Central Idea

Humans respond to the constantly changing planet.

Lines of Inquiry

- Earth's surface and composition
- Geology's impact on society
- Classification systems

How We Express Ourselves

Central Idea

Perspectives are reflected in the way we communicate.

Lines of Inquiry

- Forms of Communication
- Purpose of Communication
- Impact of Communication

Our How We Express Ourselves UOI runs the whole year.
