

What's happening in Grade 3?

UOI: Monday morning will be spent catching up on any un-finished work done so far in this unit. Rock Observations need to be done before moving onto the next step - testing! Now that all three of the rock categories have been covered we make connections and ultimately end up with the rock cycle.

MATH: We have some more multiplication to get through and then will move onto the Dinosaur Park booklet. We didn't get to it last week, so the next activity is still the one that involves money. Students will count totals and make 'purchases' based on those totals.

Reminders:

- Spelling List 28
- Library Books are due Tuesday
- With such nice weather this week we will spend extra time working outside.
- NO SCHOOL for students on FRIDAY

Current Units of Inquiry

How the World Works

Central Idea

Humans respond to the constantly changing planet.

Lines of Inquiry

- Earth's surface and composition
- Geology's impact on society
- Classification systems

How We Express Ourselves

Central Idea

Perspectives are reflected in the way we communicate.

Lines of Inquiry

- Forms of Communication
- Purpose of Communication
- Impact of Communication

Our How We Express Ourselves UOI runs the whole year.
