

What's happening in Grade 3?

UOI: Last week students put their initial understandings of symmetry, triangles, cylinders, arches, and other common shapes to the test in a mini building project – the Mini House. This week we will test the design of various bridges and towers, and further look at the characteristics needed to withstand long distances, great heights, earthquakes, and extreme weather.

MATH: We have one more project based learning math booklet to work through... Plan a Vacation for your Teacher! Ha ha I'm looking forward to this one.

Other Important Information:

- [Mabel's Labels Fundraiser](#)
- Library books due Tuesday.
- Spelling List C24
- Remind your child to look through the lost & found.

Current Units of Inquiry

How We Organize Ourselves

Central Idea

Design influences the form and function of structures.

Lines of Inquiry

- Use of measurement and geometry
- Effectiveness of various materials and architecture

How We Express Ourselves

Central Idea

Perspectives are reflected in the way we communicate.

Lines of Inquiry

- Forms of Communication
- Purpose of Communication
- Impact of Communication

Our How We Express Ourselves UOI runs the whole year.

Miss Oliver
Grade 3

June 7th - 11th

REFLECTIVE: I think about my learning. I know my strengths and areas that need improvement. I ask for help when needed.
