

What's happening in Grade 3?

UOI: Plans change... and that's what happened last week. The week took a new direction - "We wanna build!" So that's what we did. After looking at different types of bridges students were put into groups of similar (design) interests, designed a bridge, and then got down to business.

This week will be similar, but with a focus on towers and skyscrapers.

MATH: Again plans changed... We've been working through some extra data and statistics practice before the year ends. I haven't forgotten though - this week they'll play the part of travel agent and plan my vacation.

Other: In place of Daily Math we are working on various grammar & punctuation rules.

Other Important Information:

- [Mabel's Labels Fundraiser](#)
- ALL Library books due this week.
- Spelling List C25
- Check the lost & found.

Miss Oliver
Grade 3

June 14th - 18th

REFLECTIVE: I think about my learning. I know my strengths and areas that need improvement. I ask for help when needed.

Current Units of Inquiry

How We Organize Ourselves

Central Idea

Design influences the form and function of structures.

Lines of Inquiry

- Use of measurement and geometry
- Effectiveness of various materials and architecture

How We Express Ourselves

Central Idea

Perspectives are reflected in the way we communicate.

Lines of Inquiry

- Forms of Communication
- Purpose of Communication
- Impact of Communication

Our How We Express Ourselves UOI runs the whole year.
