

**March 27<sup>th</sup> from 6:30-8:30** – Open House at FCHS including highschool 101 parent presentation

**March 28<sup>th</sup>** at 9:00 – myblueprint opens for course selection (NOT first come first serve: submissions within the first 4 days are considered on-time, submissions completed after Sunday March 31<sup>st</sup> may be considered for wait lists of full programs)

April – we will be hosting grade 9 family registration appointments. The link to book the appointments will be available on our website

All information needed to register for grade 10 can be found on our website <https://fchs.fsd38.ab.ca/Registration.php>

- In regards to the advancing classes that will be available for students next year - We have attached a list for you and would ask that you encourage families to book a registration appointment to discuss which advancing classes will fit their child's needs. All students will be enrolled in yearlong advancing literacy (mandatory). They will have Advancing Literacy classes 2 times a week for 30 min throughout the school year. The one area we really need your support in recommendations for Advancing math 10. If you feel a student would benefit from additional math learning prior to 10C please recommend to these families that they take advancing in the first semester (they will enroll in that at the school during their registration appointment) and take math 10c second semester. They can also take advancing Math 10 during the same semester they are taking Math 10C. They do not have to but this will certainly help in supporting their learning prior to taking on a pretty tough class.

## Grade 10

Advancing Literacy 10

Advancing 10 Math

Advancing 10 Science
