

Millarville Community School

June 7th-11th

Unit of Inquiry

The students are continuing to enjoy their new unit. Last week the students experimented with different objects to see if they could make floating objects sink. The students also started planning and building their own boats using various classroom materials. This week the students will be continuing with their boat building.

Spelling

We will be focusing on **tr** and **dr** words. Our spelling words are: trap, trick, train, tried, trade, drip, drop, dry, drain and dress. Your child can practice these words at home through fun activities such as printing each word using rainbow colours, or special markers!

Math

The students are loving their graphing unit. This week the students will be using data to interpret problems and to construct pictographs.

Attribute of the Month Reflective

Students are responsible for their own learning. Students are able to assess their strengths and challenges. Students can set goals to support their learning.

Housekeeping

We have library on **Thursday**. Please have your child return his or her books.

Please return home reading every **Monday**.
