

March 2021

Dear Parents,

Spring is in the air! It's so great to hear that so many people have been out and enjoying the lovely weather.

In UOI, the class has been working on their summative assessment for *Where we are in place and time*, they are planning a homestead in Alberta in the 1900s. They have been very engaged in their work, taking into consideration a variety of factors.

In Math, the class has been learning different strategies for multiplication. We have covered strategies for 1,2,3,4,5,6,7,8 and 9. To support further learning, please help your child practice the multiplication facts to 9x9. We will be moving into learning the related division facts up to the 9 x 9 tables.

We will be moving into *How the world works* unit of inquiry. We will be inquiring into the importance of light in our lives and how it can be manipulated.

Mon: PE  
Tues: PE  
Wed: PE, Library  
Thurs: PE  
Fri: PE and OP

Other Important Dates

April 1 – Early Dismissal
