

Millarville Community School

Grade 2

September 28th - October 2nd

What's happening in Grade 2?

The students are continuing to learn about Bees. The class has been exploring the different ways that Bees have a positive impact on the ecosystem. In addition, the students have started learning about butterflies! We have been looking at butterfly specimens and learning about it's life cycle!

Math

This week the students will be continuing to work on odd and even numbers. In our daily math this week, the class looked at interpreting a pictograph.

Literacy:

Spelling: the students have started reviewing and spelling sight words. This week our sight words were (have, the, we, me, my, want, all, because, this, you).

This week the students also did a writing piece about what they would do for a day if they were a Bee! We have also started working on reading short stories in class and then answering reading comprehension questions.

Housekeeping

If your child is absent from school please let me know via email as well as the school office at millarville@fsd38.ab.ca.

We have **library on Wednesdays**. Please have your child return their books.

Attribute of the Month: **INQUIRER**

Students will nurture their curiosity, and develop their skills for inquiry and research.

Students will learn with enthusiasm and will sustain their love of learning throughout their lives.

Students learn independently and with others.

Current Unit of Inquiry

Sharing the Planet

Central Idea:

Insects interact with our environment.

Lines of Inquiry:

Role of insects in our environment
Human responsibility to nature.
